

# CRGS KS4 Learning Challenge

Can you rise to the challenge?

Choose (and do!) 7 things from this sheet, to the highest standard you can.  
An opportunity to learn, revise and explore...

<p>Create a spidergram or mindmap about a Chemistry topic you have found more challenging</p>	<p>Choose a Maths topic or skill that you feel needs further practice. Complete ten questions from the textbook which focus on this area.</p>	<p>Create a key words glossary for carrying out textual analysis in English Literature</p>
<p>Create a bullet point summary of a Biology topic you have not yet revised</p>	<p>Produce a set of flashcards for a more challenging topic in a Language you are studying</p>	<p>If you are in a computer room, use the GCSE Bitesize website to revise an English or Maths topic you have not yet covered at home</p>
<p>Produce your own formula sheet to assist you in revision for a Maths or Science topic</p>	<p>Choose a topic you find particularly difficult in one of your Options subjects and try to summarise it in no more than 100 words</p>	<p>Find an essay question that you completed in Sept/Oct. Re-read it. How would you approach it differently now? What would you add? What would you miss out?</p>
